With this being the case, it can easily be figured out what would happen if anybody here would try to import raw jute from a country where the cheapest sort of labor abounds for our high priced labor to make into low grade goods like burlap cloth. Last year over three hundred million square yards of burlap cloth was imported into the United States. A third of this was used for the bags which contain fertilizer, poultry and stock foods. The tax on this third was \$1,600,000, directly paid by the farmer, planter and stock raiser. The market value of this cloth was over \$25,000,000, and the tax of the stock raiser. the tariff tax amounted to 19 per cent -to protect an industry that does not exist and never can exist in this country. The duty was reduced from 22.91 per cent to 22.12, one of those substantial reductions boasted of by Republicans.

### Gruesome Find,

The Cynthiana Democrat says: Friday a cow down at the A. Keller distillery foundered on white clover and gave up the ghost. She swelled to such proportions that Dr. Mussleman opened her after she was dead and in her interior department found quite a mass of white gravel, which she had doubtless picked up while browsing on the river bank. Well, this is not the gruesome find. It was this is not the gruesome find. It was necessary to bury the cow, and in digging the grave the upper portion of the skull of a human being was un-earthed It grinned up at the colored man who was doing the digging and gave him quite a shock, but he returned to the charge with a pole and car-ried it to the distillery for the revenue men to examine That's the grue part It is supposed that it is the skull of a colored man who froze to death while on a drunken spree in that neighborhood about 20 years ago and was buried where he was found The colored man was known as Pete Ammerman, or Pete Taylor, and worked for the late Col Adam Renaker Many

At the same time, it is shown that corn alone is not nearly so good or so profitable a feed as corn supplemented by some proteid food such as tankage, linseed, oilmeal or soy beans. If hogs feed exclusively on corn the animal becomes yery fat and chubby and does not deal a disease to conquer as Eczema. Yet he does not hesitate to recommend ZEMO as a most successful remedy for the treatment of Eczema, itching skin diseashs, dandruff, pimples, blackheads and all other diseases to conquer as Eczema. clusively on corn the animal becomes very fat and chubby and does not develop properly; the bones are brittle and easily broken. Sixty-five hogs were used in this experiment and they were divided into lots of five each. Twelve different rations were served with corn alone in two of them and corn supplemented with some other feed in the others. The hogs fed on corn and tankage gained the most; those receiving corn alone were most unsatisfactory.

First of all, if you have not yet used it, Dr. Caldwell would like to send you a sample bottle free of charge. In this way you can try it before buying, Later, when convinced of its merits, you can get it of your druggist at fifty cents and one dollar a bottle, just as thousands of other families are doing. The family of Mr. D. W. Spangler of Strattonville, Pa., as well as that of Mr. A. F. Johnson of Walnut Grove, Tenn., started with it in that way and now write that it is their one family necessity next to food itself. If you are unfortunate enough to have a sickly child, one given to constipation and indigestion, you should send for a free sample of this remedy.

Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. Quaint Customs That Are Maintained With Religious Care.

The head master of Manchester Grammar school, in a speech at Rochdale. referred to a custom at Rugby school which forbids a boy of less than three years' standing to turn up his trousers and insists on his doing so after that

The custom is only a minor instance A child should have two full and free movements of the bowels a day. This emptying of the bowels is very important, as with it comes a clear head, a lightness of step, good appetite and sound sleep. But it is equally important to know what to give the child in the emergency of constipation and indigestion. Cathartics are too strong and salts and other purgatives are not only too strong, but the child refuses them because of their bad taste. Have you ever tried Dr. Caldwell's Syrup Pepsin? It is a liquid tonic that families have been using for a quarter of a century. It is mild, pleasant-tasting and promptly effective. It is good for you as well as the child, but there is nothing better to be found for children. They like its taste—you will not have to force them to take it.

### BURGLARS' TOOLS.

Most of Them Made by Supposedly Respectable Mechanics.

Every little while, said a detective recently, the police arrest a man with a set of burglar's tools in his possession, and one naturally wonders where they all come from.

It is easy to buy a gun of any description, and the most reputable person would not be ashamed to be seen purchasing the most wicked looking knife ever made. But who would know where to get a "jimmy" or a device for drilling into a safe or any of the many tools used by the professional burglar in the pursuit of his calling?

There are places in the large cities where these things are made and sold to the users, but such places are exceedingly scarce. It may seem a little strange to learn that most of the tools used in burglaries are made by mechanics who are looked upon as re-

When a burglar wants any pa lar tool made he goes to a mechanic who can do the job and pays him perhaps five times what it is actually worth for making the tool and keeping quiet about it. Many detectives can recall cases of this kind that have come to light.

One in particular occurred some years ago when an escaped convict named Williams went to a blacksmith and got him to make a lot of drills to be used in safe cracking. He personally superintended the tempering of the steel, but when the job was nearly completed it leaked out, and Williams was arrested. In this instance the blacksmith knew nothing of the use to which the tools were to be put. Most of the tools used by burglars are secured in the same way .- Philadelphia Inquirer.

Shoemaker's Candles.

I well remember some seventy years ago seeing flat candles in use. To produce what was known as the flat candle, which was also sometimes called "shoemaker's candle." two newly made "dips" were pressed close to each other while soft and then again lowered into the hot fat, thus holding them together as one candle with two wicks. The size could then be increased if desired. This flat candle was most generally used by shoemakers and tailors, but was made use of in some households whenever an extra bright light for working or reading was required.-Cor. Dickensian.

It seemed last week that the top limit of excellence had been reached, but the performance of last night, which will be repeated tonight, excelled them all. Mr. Roy Lynn, as the "Rube," has a splendid act, and made good from the start. The mov ing pictures were up to the high average which Mr. Porter has inaugurated.
But by far the best act that has ever been seen on the stage of the Grand this or any other season was that of the Duvall sisters, two little ladies, who, though young in years and small at 10:10 this morning and the burial so-called good acts beat to a frazzle. will take place at the Paris cemetery. They are the personification of grace in their dances, and both have sweet and pleasing voices. It has been many a of Knights of Pythias will meet in Carlisle on May 11, and will be attended by the grand Lodge officers and died Sunday afternoon after an illness limited to two nights, and that tonight will be their last appearance unless
